

## Dogfish Bay loop

This is a fairly challenging trail that should take a fit hiker about 4-5 hours to complete. Park at the trailhead to Secret Cove trail, just off Gray Bay road. From Secret Cove, find the trail that starts in the woods and passes on top of the cliff and heads north. It is best to start the hike on a low tide as some walking will be on rocky shores and boulders. Portions of the route can be slippery, especially in inclement weather.

**Bear country.**

You can find this trail and many others by activating “public trails” in the Gaia GPS app
